Summary

Aspiring Research Intern with strong problem-solving skills, hands-on experience in building scalable applications, and a solid foundation in data structures, algorithms, and modern software development practices.

Skills

- SQL proficiency
- Programming languages: Python, C, Java
- MongoDB fundamentals
- Statistics and probability knowledge
- HTML/CSS/Javascripts Basics
- Problem Solving skills

Education

BE - Computer Science and Engineering

EASWARI ENGINEERING COLLEGE

2024-2028

- GPA (up to 3rd Semester): 8.62
- Member of IET (Institution of Engineering and Technology)

Relevant coursework in

- Data Structures and Algorithms
- Artificial Intelligence and Machine Learning
- Cybersecurity Fundamentals
- Computer networks
- Communication and analytics skills

CBSE

2015 -2024

DAV ADAMBAKKAM

- Class XII : Secured 92.2% (Bio-Maths)
- Class X: Secured 95%

Certifications

- CISCO License** : Python Essentials , Introduction to Data Science, Networking Basics
- Udemy** : SQL Training
- NPTEL**: Privacy and Security in Online Social Media Problem Solving through programming in C
- Infosys SpringBoard**: Core Java Revisited Course

Internships

- 1M1B and IBM** - AI and Sustainability Virtual Internship
- Research Intern**-Noctaalytiq Insights

Projects

DiaPulse - Diabetes Monitoring and AI based Decision Making Platform

Developed a platform where patients can upload the reports which they tend to miss them and find their accurate glucose values along with AI analytics ,monitoring and suggestions

Digital Shiksha Platform for Rural Students – Nabha

Developed an offline-first learning platform for rural students under SIH 2025, enabling access to PPTs and videos (up to 2GB) in low or no internet areas.

Technical Events

Participated in the TechSaavy event on debugging the program code

Participated and got selected in the SIH(Smart India Hackathon), internal hackathon

Took part in attending multiple tech-workshops like the Cybersecurtiy Awareness by IITM Pravartak and the Coding using Agentic AI
