Summary

Determined second-year student with a strong building foundation in statistics, programming, and data visualization. Passionate about data science and eager to apply analytical and technical skills to solve real-world challenges.

Skills

- SQL proficiency
- Programming languages: Python, C, Java
- MongoDB fundamentals
- Statistics and probability knowledge
- Problem Solving skills

Education

BE - Computer Science and Engineering

EASWARI ENGINEERING COLLEGE

2024-2028

- GPA (up to 2nd Semester): 8.67
- Member of IET (Institution of Engineering and Technology)

Relevant coursework in

- Data Structures and Algorithms
- Artificial Intelligence and Machine Learning
- Cybersecurity Fundamentals
- Computer networks
- Communication and analytics skills

CBSE

2015 -2024

DAV ADAMBAKKAM

- Class XII : Secured 92.2% (Bio-Maths)
- Class X: Secured 95%

Certifications

- CISCO License** : Python Essentials , Introduction to Data Science, Networking Basics
- Udemy** : SQL Training
- NPTEL**: Privacy and Security in Online Social Media Problem Solving through programming in C
- Infosys SpringBoard**: Core Java Revisited Course

Hobbies and Interests

- Singing and Dancing
- Literary writings: Poems and Essays
- Social Services

Projects

Console based Application - Personal Health Logbook

Used OOPS Java concepts to track the details of Health, Symptoms and Diet Logs for as the purpose to actively monitor the health status in daily basis

Solar Tracking System

Integrated with hardware components to detect the presence of solar radiations using Arduino and Solar panel

Technical Events

Participated in the TechSaavy_event on debugging the program code

Participated and got selected in the SIH(Smart India Hackathon), internal hackathon

Took part in attending multiple tech-workshops like the Cybersecurity Awareness by IITM Pravartak and the Coding using Agentic AI
